

[Sante Caribe Ozone Center](#)

Click link or above picture to see wonderful healing center in the Carribean: <http://www.zeusinfoservice.com/SanteCaribeOzoneCenter.pdf>

The price in the pdf brochure includes double occupancy, so that accommodation and meals for a spouse, partner or parent are included in the price.

Sante Caribe is offering excellent commission for referrals, to practitioners who have patients with degenerative diseases or cancer. This is a first class facility with a variety of excellent treatments on a paradise island!

Ozone is electrified oxygen which can turn around any disease process. We can live without food and water for a short time but for only 3 minutes without oxygen that is why it is so essential and powerful.

I can also tell you that coincidentally two of my friends had only a couple of ozone treatments and they looked incredibly well and also about 15 years younger! A 3 week course, coupled with other very powerful treatments, can clear just about any chronic condition. See brochure above for all details.

The price might seem high to some but in fact there are other ozone centers which charge double, which do not have all the other treatments. If you are seriously ill with a bad prognosis, it is worth it and not expensive if it saves your life.

If for any reason the above link does not come up, I can send you the PDF as an attachment. For those people serious about choosing ozone treatment or practitioners who want to take advantage of the referral commission, I can post you for free an award-winning DVD on Ozone made in the USA.

Email Louise Mclean at santecaribe@talktalk.net or louise4writer@gmail.com for details on how to contact Sante Caribe Ozone Center. I can also give contact details to prospective patients who want to find out exactly what can be treated. Telephone (UK): 0208 728 1645 or 0208 998 4323. Practitioners can contact me to find out about referral commission.
